Hi guys, I'm new here. I have a Volvo 940 '98 with B230FK and I installed a MBC into it. I have a question about the Yoshifab.com - Manual boost controller.

The 940 Turbo was never available in Thailand with a manual gearbox, so there is no 'Real Performance Boost – Manual Boost Controller' for my Volvo 940.

I have for sale a 1988 Volvo 740 turbo wagon, it has 300,000 miles on it currently. It has a turbo back 2 and a half inch side dump exhaust, manual boost controller. I have ordered a Manual Boost Controller and Boost Gauge for my '97 LPT 940. Now just for a few extra turbo points, I have been thinking of fitting a dump.

I used to have this 940, 2.3, Turbo, Manual, Welded Diff etc which was great fun. I went it entirely for an adjustable one and removed the manual boost controller. A well maintained two-owner 1994 Volvo 940 Sedan with the Turbo option.

Any internal changes, with a simple manual boost controller and waste gate. Volvo only used that on the Regina/Rex system on the 89-94 740/940. Recommended MBC for Volvo 850 Turbo Manual Boost Controllers for Volvos.
Hi all, got my 940 for sale to fund another Volvo. Currently running on e85 on the stock Lh2.4 efi and 12psi of boost using a manual boost controller but can.

Modified Volvo 940 1994 Picture Rear viscous differrential with 3.73 Final Gear Ratio, Manual Boost Controller,…

Exactly as Volvo lovers, it's quite relieved to see a lot of people still doing salvation job in Turbosmart Boost controller 5-speed M90 manual transmision. OK so I've tried the take the wastegate line off trick, but I can't boost past 8-9psi on my s70 glt (stock turbo). I'm running a manual boost controller..it just won't go.

It's a '94 Volvo 940 2.0 Wentworth Estate on 166k with no service history and a few months MOT. The car itself Manual boost controller at 10-12 PSI - Weld diff

Manual Boost Controller 1/4" Mustang SVO Turbocoupe Ford 2.3L turbo Gillis valve BOSCH 30lb FUEL INJECTORS VOLVO 740 760 940 TURBO 2.3L.

Estimated Install = 12-15 Hrs The kits ship with a 3 PSI Spring. For higher boost levels a boost controller is suggested 2014+ May Require AC Line kit - $99.00
